

Rudraksh Bhatnagar

BCA — Data Science & AI | Software Development | Data Science | AI/ML

Lucknow, Uttar Pradesh, India • +91 8177012704 • bhatnagaralka63@gmail.com

PROFILE

BCA student specializing in Data Science & AI with hands-on experience building web applications, interactive 3D projects, and data-focused programs. Interested in software engineering, data science, machine learning, artificial intelligence, web technologies, and practical problem solving. Actively building projects and strengthening programming, data, and development skills.

EDUCATION

Bachelor of Computer Applications (BCA) — Data Science & AI	BBD University
	India
Specialization: Data Science & Artificial Intelligence	Current

TECHNICAL SKILLS

Programming	Python, C, JavaScript
Data & Analytics	Pandas, NumPy, Matplotlib, SQL
AI / ML	Machine Learning, Artificial Intelligence, Data Science
Web Development	HTML, CSS, JavaScript
3D / Graphics	Three.js, WebGL
Tools	Git, GitHub, VS Code / CodePen, Browser-based development
Core Areas	DBMS, Computer Networks, Algorithms & Problem Solving

PROJECTS

- GameRent — Game Rental Web Platform** | HTML, CSS, JavaScript
- Built a modern game-rental website with a game-store inspired interface.
 - Implemented rental/cart functionality, wishlist/profile features, responsive styling, and browser-side interactions.
 - Deployed the project online using Vercel and maintained the source code on GitHub.
- Backrooms — Three.js 3D Browser Game** | JavaScript, Three.js, WebGL
- Developed an interactive 3D browser game with a custom environment and player movement.
 - Worked with 3D geometry, materials, lighting, camera setup, animation loops, and WebGL rendering.
 - Published the project through GitHub Pages with source code available on GitHub.
- Data Science / AI Projects** | Python, Pandas, NumPy, Matplotlib, SQL, Machine Learning
- Building practical projects focused on data analysis, visualization, databases, and machine learning.
 - Developing skills in data cleaning, exploratory analysis, visualization, SQL querying, and AI/ML workflows.

AREAS OF INTEREST

Data Science • Artificial Intelligence • Machine Learning • Software Development • Web Development • Data Analytics • 3D Web Technologies • Databases • Python Development
